HOPE
Heroin and Opioid Prevention Education

We are losing current and former students to heroin addiction. We have students losing parents. We have family members that are struggling. It is critical that we educate ourselves.

HOPE was developed by the Center for Humanistic Change in response to this growing epidemic. By attending the program, participants will be able to identify:

- **What is Heroin? What are Opioids?**
- **Signs and Symptoms of Someone Using**
- **Effects of Use - on Health, School, Relationships, and Life**
- **Local Resources**
- **Where to Go for Help**
